

# October Project, Always

I have come to know you  
Over all these years  
We've seen many days come and go  
After all the time we've shared  
All the secrets told  
Will you ever say I love you

If you gave me nothing  
Nothing more than this  
I would have the mem'ry to keep  
Let me make this simple wish  
As we fall asleep  
Let me wake with you by my side

Always

If you have to leave me  
Leave me with a kiss  
Tell me how you feel without words  
Are you so afraid to stay  
Must you be alone  
Let me wake with you by my side

Always
