

Of Monsters and Men, This Happiness

I been crawling around in mud
Chasing rivers and rubbing salt in the wound
Salt in the wound
Now I'm letting go of letting go
I feel the air light up when I'm alone
When I'm under a dome

It's the only way I know
It's cake to not feel great when you're in a storm

[Chorus: Ragnar Þórhallsson & Nanna Bryndís Hilmarsdóttir]

This happiness is hell on earth
Somebody better save me
This happiness is hell on earth
This happiness is hell on earth
I think it's gonna kill me
This happiness is hell on earth

Sometimes I feel like I live on the moon
No need to sleep when the sun is staring me down
Staring me down
We fight again, we're like paper planes
But I just wanna tumble and collide
A bird in the night

It's the only way I know
It's cake to not feel great when you're in a storm

This happiness is hell on earth
Somebody better save me
This happiness is hell on earth
This happiness is hell on earth
I think it's gonna kill me
This happiness is hell on earth

This happiness is hell on earth
Somebody better save me
This happiness is hell on earth
This happiness is hell on earth
I think it's gonna kill me
This happiness is hell on earth
