

Of Sound And Fury, The Garbage Man Doesn't C

The battle rages on every front
All stand witness to holy might

We're so high, we're following your lead

The God of our fathers is mighty
He broke us free from our bondage

War is not won with weapons, but faith
The battle inside is harder than any we'll meet
Run and take the bastion of evils last hope
He won't hide for long
Cause he can't
Draw him out from the shadows
Draw him out and strike
