

# Of The Son, Epidemic

Infect the world with your epidemic  
Flood the earth, consume the sky  
Let it flow from your holy spirit  
Then exalt his name on high

It's yours, it's mine  
It's spreading over all mankind  
When it's over you will see  
This epidemic is eternity

And now you've seen through my eyes  
And it's over  
I don't know how to disguise  
That it's over  
And now you've taken my life  
And it's over  
I know you want to be mine  
But it's over  
It's over now

Spread the epidemic
