

# Officium Triste, Inside The Mind

I don't want to fall asleep

When I fall asleep  
I feel naked in my mind  
My mind is showing me  
Things I don't want to see  
From the past and what is to be  
It's all too much for me

As it shows who I really am  
And it shows who I'm gonna be  
Reality is shown within my dreams  
I have to stay awake by any means

When I fall asleep  
I feel naked in my mind  
My mind is showing me  
Things I don't want to see  
From the past and what is to be  
It's all too much for me

As it shows who I'm gonna be  
And it shows who I really am  
Reality is shown within my dreams  
I have to stay awake by any means

I can't be proud off myself  
A masquerade of who I am  
I feel that's my only help  
Don't want to belong to the damned  
Yet to the damned I belong  
All hope forever gone  
Sleepless nights what I get  
A state of mind I regret  
I regret what I see when asleep  
All left for me to keep  
Nightmare visions, tossing and turning  
The sight of my mind burning
