

# Officium Triste, This Is Goodbye

This is goodbye  
I am leaving, we tried  
We failed, we're done  
Goodbye, I'm gone

I am through with you, I am leaving this hell  
Our love is lost, there's nothing more to tell  
Everything's over, the passion's gone  
I'm out of here, goodbye, so long.

It's not my fault  
You're the one to blame  
I cannot stay  
Don't want to feel no more pain  
I'm through with you  
Everything stops here today  
No future together  
The price we pay  
So this is goodbye  
I'm forever gone  
So this is goodbye  
I'm staying away
