

Offset, If We Make It

It's all right here on the table
All the pieces we need
We just need some direction
And it hurts me when we fail
On this train meant to derail

And I can't fall apart this time
No I won't fall apart

If we make
We'll leave this all behind
And if we make
Success will look to find us
And everything will be okay
If we make it
If we make it

These three long years I gave my all
I climbed so high, yet learned to crawl
But this time is the last time
That my knees will hit the ground

If we make
Well leave this all behind
And if we make
Success will look to find
And everything will be okay
If we make it
If we make it
If we make it
