Offset, If We Make It

It's all right here on the table All the pieces we need We just need some direction And it hurts me when we fail On this train meant to derail

And I can't fall apart this time No I won't fall apart

If we make
We'll leave this all behind
And if we make
Success will look to find us
And everything will be okay
If we make it
If we make it

These three long years I gave my all I climbed so high, yet learned to crawl But this time is the last time That my knees will hit the ground

If we make
Well leave this all behind
And if we make
Success will look to find
And everything will be okay
If we make it
If we make it
If we make it
