

Oh No Ono, Practical Money Skills For Life

Town, town, town, town, town, town, town, town, town, town, town (town)
Why-why-why
Why does she say so?
That money defines love
I couldn't believe it
She's was lost in a long run

I said in this town, in this town, town, town
No one runs around, round, round
In this town, in this town, town, town
We're going down, down, down
Let's get funny with the money
She said
Let's get funny with the money

Why does the right go?
When you live in a small town
Can't we go back now?
To where we belong, yeah

In this town, in this town, town, town
No one runs around, round, round
In this town, in this town, town, town
We're going down, down, down
Let's get funny with the money
She said
Let's get funny with the money

Money for the leaders
Money loves to travel
Money's a bigger deal
Money never lies
Let's get funny with the money
Money, money, money, money
Let get funny with the, oh money!

(La, la, la, la, la, la, la, la)

Town, town, town, town...

We must leave this town before it's time to go
(town, town, town)
Understand that time has come to say goodbye, bye, bye, bye, bye

In this town, in this town, town, town
No one runs around, round, round
In this town, in this town, town, town
We're going down, down, down
