

Oi Polloi, Punx Or Mice

You come to the gig
And you think you're really big
but to me you just look small
As you cover the back of the ball
Lacking even the guts to get up the front and dance
It's enough to make me cry
Are you punx or mice?

(Chorus:)
Are you punx or mice?
They cheat you, they rob you
And they treat you all as fools
And yet you sit and take it
Are you going to give up without a fight?
Are you punx or mice?

(chorus)
They're sick, they're wrong
They've oppressed us for too long
Now it's our turn to attack
We must fight back
United, as one, together - you and i
Don't say we cant do it
Are you punx or mice

(chorus)
