Oi Polloi, You Cough/They Profit

You cough - they profit

Well I thought it was about mutual respect

But your filthy smoke chokes me so am I incorrect?

With your pathetic sick habit you pollute my air

Have you no respect for others?

No, you just don't seem to care

I don't like your selfish attitude one little bit

You're just a hypocrite

Animals die in the laboratory

Forced to smoke over thirty a day

Don't think you can ignore them 'cos they got no voice

Cause only you can stop it - only you have the choice

Like it or not, they've murdered in your name

While you continue to smoke you must live with the blame

You think you're oh so sussed but there's something that you've missed

And the big tobacco businessmen are laughing at this

Yes, you actually pay to ruin your health

While you suckers abuse your body

They're just making more wealth

You cough - they profit

You choke - they profit

You die - they profit

You cough - they profit

Have you got the strength of will to stop it?

STOP IT STOP IT STOP IT

I know you've got the strength of will to stop it.
