

OK Go, 1000 Miles An Hour

'Nother long, quiet night
Another long quiet lonely night, oh
Spent at your side
Not a lot left to say
There's not a lot that I still could say, oh
To change your mind

With a little bit of money, we could buy us a car
With a little luck, we could get away from where we are
Let's get outta here
We'll drive 1000 miles an hour
We'll fly by wheat fields and water towers
We'll go, we'll go, and we'll go, and we'll go
Let's go, let's go, let's go, let's go

Now the look in your eye
You know the look right before you cry, oh
It's always here
So when the day when you wake
in the mornin' when you awake, oh
Let's disappear

With a little bit of money, we could buy us a car
With a little luck, we could get away from where we are
Let's get outta here
We'll drive 1000 miles an hour
We'll fly by wheat fields and water towers
We'll go, we'll go, and we'll go, and we'll go
Let's go, let's go, let's go, let's go

We'll drive 1000 miles an hour
We'll fly by wheat fields and water towers
We'll go, we'll go, and we'll go, and we'll go
Let's go, let's go, let's go, let's go
Let's go, let's go, let's go, let's go...
