

OK Go, Aren't We Dozy?

Shall we recline in my easy chair?
We'll take the straightest cot I've got to spare
Puttin' up your legs
Go to sleep for a while
So cozy under the inclimate weather
I'll be a pillow and your head can rest
Shut aside giggle and tear 'em up right
Your hair tickles slightly
But that's alright

Hey

Shall we recline in my easy chair?
We'll take the straightest cot I've got to spare
Lay down your head
Go to sleep for a while
Lay down your head
Go to sleep for a while
Lay down your head
Go to sleep for a while

Shall we recline in my easy chair?
We'll take the straightest cot I've got to spare
Puttin' up your legs
Go to sleep for a while
So cozy under the inclimate weather
I'll be a pillow and your head can rest

Lay down your head
Go to sleep for a while
Lay down your head
