

# OK Go, It's A Disaster

Crash and burn, crash and burn, crash and burn (crash and burn)  
Patience is the hallmark of the old and the infirm  
Lived and learned, lived and learned, lived and learned  
Out lived their lust and traded want in for concern  
Singing that's all right  
Yeah that's all right  
Aw that's all right

So come on down, come on down, come on down (come on down)  
Get out our pestilence and vice and pass them around  
And blow this town blow this town blow this town  
Jump off this ship before the shit just runs aground  
Singin' that's all right  
Aw that's all right  
Aw that's all right

It's a disaster  
It's an incredible mess  
But it's all we've got now  
Yeah it's all we got  
Howling with laughter, panic  
alarm, and distress  
But it's all we've got now  
Yeah it's all we got

Head or tails, heads or tails, heads or tails (heads or tails)  
Are you dumb enough to break the mold  
or smart enough to fail?  
Oh happy trails happy trails oh happy trails  
Can't beat a little bit of envy in your sails.

Singing that's all right  
Yeah that's all right  
Oh that's all right

But it's a disaster  
It's an incredible mess  
But it's all we've got now  
Yeah it's all we got  
Howling with laughter, panic, alarm, and distress  
But it's all we've got now  
Yeah it's all we got
