

# Okay, My

More than you know  
More than I can show  
Its my heart you've got  
More than hooray  
more than i can say  
its my heart you've got  
more than you see  
more than up to me  
its my heart you've got  
more than alone  
more than on your own  
its my heart you've got  
its my heart you've got  
its my heart you've got  
its my heart you've got  
and I start speaking too soon  
when I look at the moon  
light on your face.  
And I'm not one to be proud  
but I'll say it out loud  
If you want  
my heart  
I start speaking too soon  
when I look at the moon  
light on your face.  
And I'm not one to be proud  
but I'll say it out loud  
If you want  
my heart  
if you want  
my heart  
if you want  
my heart  
if you want  
my heart
