

Ola, Brothers

Like a shelter in the storm, Ill keep you warm
Know that you always can count on me
When everything fails, Ill be the wind in your sails
Know that you always can count on me
With you I am strong
I feel ten feet tall
If things go wrong youre there to break my fall
Its not our colors
Its not our race
That makes us brothers
No matter what we might face
Its not our last name, not the blood in our vanes
That makes us brothers
The love we share makes us the same.
Like the ground you walk on so solid and strong
Know that you always can count on me
Anything that you need, even the air that I breathe
Know that you always can count on me
With you I am strong
I feel ten feet tall
If things go wrong youre there to break my fall
Its not our colors
Its not our race
That makes us brothers
No matter what we might face
Its not our last name, not the blood in our vanes
That makes us brothers & The love we share makes us the same.
I want you to know, in my eyes youre heroes
And I cant imagine a life without
And if tomorrow never comes, Ill thank you for today
Its not our colors
Its not our race
That makes us brothers
No matter what we might face
Its not our last name, not the blood in our vanes
That makes us brothers
The love we share makes us the same.
Its not our colors
Its not our race
That makes us brothers
No matter what we might face
Its not our last name, not the blood in our vanes
That makes us brothers
The love we share makes us the same
