

Ola, Feelgood

Life is, life is, life is good
Since you came to my rescue
Erase the past and made me new
Oh
Such a pretty little face
You book me in a state of grace
And take us to a higher place
I'm not letting you go
No, No, No!
Every little thing you do
Is everything I want from you
Can never get enough of you
You make me feel good
It's every little thing you say
I'm loving every single way
Like sunshine on a rainy day
You make me feel good
You take me high up in the clouds
And make me feel like I'm alive
When I see heaven in your eyes
Like a siren loud and clear
You're breaking through my atmosphere
And all the silence disappear
I'm not letting you go
No, No, No!
Every little thing you do
Is everything I want from you
Can never get enough of you
You make me feel good
It's every little thing you say
I'm loving every single way
Like sunshine on a rainy day
You make me feel good
I'm not letting you go
Every little thing you do
Is everything I want from you
Can never get enough of you
You make me feel good
It's every little thing you say
I'm loving every single way
Like sunshine on a rainy day
You make me feel good
