

Ola, Who I Am

I don't regret any choices
That I've made
And what I've become
When you follow your passion
You can hear
It's calling to you
Then you start on the journey
Let the story unfold

Refren:

I breathe in, I breathe out
Through the changes in life
All around me so different
But I don't change inside
I breathe in, I breathe out
And I always get by
I know everything changes
But I don't change inside
Looking over my shoulder
Looking back
To where I come from
In the mirror I'm older
But deep inside
I'm still the same child
Looking back at my journey
I don't forget who I am

Refren

I remember where I come from, where I've been
I remember and I know, I can't go back
There's only now and it's for real
