

Old 97's, King Of All The World

I was in a real bad way
When you turned the power on
And you made me feel for all the world
Like I was the king of all the world
I was on a window ledge
When you came upon me there
Everything was upside for the moment
Right around the time I had to get going
Can't count me out
Cause I've got your number
You make me feel like I'm
The king of all of the world
King of all of the world
The king of all of the world
Now I'm on my way up north
All its gonna do is rain
And I'm gonna want to go back to the world
Where I was the king of all of the world
Can't count me out
Cause I've got your number
You make me feel like I'm
The king of all of the world
King of all of the world
The king of all of the world
I was in a real bad way
When you turned the power on
And you made me feel so right at home
I wonder if I'm ever gonna get back home
Can't count me out
Cause I've got your number
You make me feel like I'm
The king of all of the world
King of all of the world
The king of all of the world
If I wander out
Of a picture window
