

Old Dominion, Ain't Got A Worry

It's Friday afternoon, I just got paid
Missed all the traffic on the interstate
I ain't early and I ain't late
And I ain't got a worry in the world

It's a perfect California kinda '75
Ain't got a rock in my shoe, ain't a cloud in the sky
Life feels like I got a fish on the line
And I ain't got a worry in the world

Ain't nowhere to be that I care to be
It ain't fair to be feeling this good
There ain't no rain around that can bring me down
Right now, I ain't got a worry, ain't got a worry
Ain't got a worry in the world

I found a Jean jacket that was just my style
I ran into a friend I ain't seen in a while
Catching up over a couple of twelve ounce curls
And we ain't got a worry in the world (What's up, man?)

Ain't nowhere to be that I care to be
It ain't fair to be feeling this good
There ain't no rain around that can bring me down
Right now, I ain't got a worry, ain't got a worry
Ain't got a worry in the world
Nah, I ain't got a worry, ain't got a worry
Ain't got a worry in the world

Now I'm no stranger to hard luck days
Where the cookie didn't crumble quite my way
But the cookie's tasting pretty damn sweet today
And I ain't got a worry, ain't got

Anywhere to be that I care to be
It ain't fair to be feeling this good
There ain't no rain around that can bring me down
Right now, I ain't got a worry, ain't got a worry
Ain't got a worry in the world
Nah, I ain't got a worry, ain't got a worry
Ain't got a worry in the world, nah
