

Old Dominion, Easier Said With Rum

I don't know what time it is there
But down here it's way past 5 o'clock
Blew through a couple hurricanes and heard your name
And it tied me up in knots
Yeah, I know a lot of time has passed
There's a lot of sand through the hourglass
I know I shouldn't have called you drunk
I guess it's easier said with rum

Floating on top of a Pina Colada
Sitting here, missing you, thinking a lot about
How I messed up, I should've fessed up
Guess it's easier said with one
Or two, to take off the edge
Feelin' the buzz and regret
I'm sorry "I'm sorry" took so long to roll off my tongue
Guess it's easier said with rum

You ain't gotta say a thing
If I'm a day late or a dollar short
And you can tell this ain't my first drink
But it is my last resort
Try to put yourself in my flip-flops
Thinkin' about you nonstop while the sun drops
I want you more than I've ever wanted anyone
Guess it's easier said with rum

Floating on top of a Pina Colada
Sitting here, missing you, thinkin' a lot about
How I messed up, I should've fessed up
Guess it's easier said with one
Or two, to take off the edge
Feelin' the buzz and regret
I'm sorry "I'm sorry" took so long to roll off my tongue
Guess it's easier said with rum

Now that it's over
And I ain't so sober
All the things that I should've told ya
Are easier said with rum

Floating on top of a Pina Colada
Sitting here, missing you, thinkin' a lot about
How I messed up, I should've fessed up
Guess it's easier said with one
Or two, to take off the edge
Feelin' the buzz and regret
I'm sorry "I'm sorry" took so long to roll off my tongue
Guess it's easier said with rum
I guess it's easier said with rum
