

# Old Dominion, Hot Again

You wear that jacket like it's the only thing that can keep you warm  
And I'm right down the hall  
I don't know when the ocean in-between us became the norm  
We fell in the fall  
It's been a long December  
I'd do anything to get us out of the winter

Can we get hot again?  
When we burned like the embers on a Malibu summer night  
Let's bring it back to when  
We were two bottle rockets popping off in a purple sky

Can we hold on  
'Til the cold's gone?  
Yeah, we had it once. So, why not again?  
Can we wait out the rain  
And fan this flame  
Until it's hot again?  
Yeah

I know that I should be telling you I love you more  
I know how much it means  
How long has it been?  
I got two tickets to somewhere the temperature can thaw out the freeze  
Sun on our skin  
And sparks in the air  
Rum on the rocks  
Maybe we'll find what we forgot

Can we get hot again?  
When we burned like the embers on a Malibu summer night  
Let's bring it back to when  
We were two bottle rockets popping off in a purple sky

Can we hold on  
'Til the cold's gone?  
Yeah, we had it once. So, why not again?  
Can we wait out the rain  
And fan this flame  
Until it's hot again?  
Oh yeah

Again

Don't wanna look back at the ashes and wonder what might have been  
So, before it ends

Can we get hot again?  
When we burned like the embers on a Malibu summer night  
Let's bring it back to when  
We were two bottle rockets popping off in a purple sky

Can we hold on  
'Til the cold's gone?  
Yeah, we had it once. So, why not again?  
Can we wait out the rain  
And fan this flame  
Until it's hot again?  
Yeah

Let's get it hot again  
Mm-hmm-hmm
