

Old Dominion, Some Horses

I'm fast, I'm free
I turn my face against the wind
If someone tries to fence me in
I have to see
What's beyond the beaten path
Always on to greener grass

And that's what you love about me
And the reason you're without me

I race and I run, I keep chasin' the sun
When I'm done, you see nothin' but dust
I'm restless and rare with the wind in my hair
Going somewhere that I never was
You were holdin' me knowin' I couldn't be broken
And now you're just holdin' the reins
I'll love you forever, you should have known better
Some horses can never be tamed

I might not be
The painted sunset that you chose
But not too many get that close, yeah
It's so bittersweet
I finally found an open field
I couldn't stand just standing still

And that's what you love about me
And the reason you're without me

I race and I run, I keep chasin' the sun
When I'm done, you see nothin' but dust
I'm restless and rare with the wind in my hair
Going somewhere that I never was
You were holdin' me knowin' I couldn't be broken
And now you're just holdin' the reins
I'll love you forever, you should have known better
Some horses can never be tamed

And that's what you love about me
And the reason you're without me

I race and I run, I keep chasin' the sun
When I'm done, you see nothin' but dust
I'm restless and rare with the wind in my hair
Going somewhere that I never was
You were holdin' me knowin' I couldn't be broken
And now you're just holdin' the reins
I'll love you forever, you should have known better
Some horses can never be tamed

I'll love you forever, you should have known better
Some horses can never be tamed
