

Old Dominion, Stay Drunk

Strong is the way that I love her
Truth is the way to her heart
Stars are what shine above her
Slow is how we dance in the dark

Holes in the knees of her Levi's
Gold in the chain on my neck
Bumps in the road that we've been down
But this love ain't killed us yet

Lost is how she found me
Both ends is how I like to burn
Wrapped her arms around me
All of me is all I'll give to her

Straight outta the sunset into the night
In the blink of a heartbeat set on fire
Anyway, anywhere, anytime
Every song ever stuck in my mind
Fast is how my heart beats
Too soon is when that sun comes up
Long is how them nights get
On her is how I wanna stay drunk

Long are her legs in my backseat
Tattoo is her name on my arm
T-shirt is what she's stealing
Right along with my heart

My doubts are what she's sure of
Sure as that river cuts through town
High is how she gets me
Never is when I'm coming down

Straight outta the sunset into the night
In the blink of a heartbeat set on fire
Anyway, anywhere, anytime
Every song ever stuck in my mind
Fast is how my heart beats
And too soon is when that sun comes up
Long is how them nights get
On her is how I wanna stay drunk
Stay drunk

Straight outta the sunset into the night
In the blink of a heartbeat set on fire
Anyway, anywhere, anytime
Every song ever stuck in my mind
Fast is how my heart beats
Too soon is when that sun comes up
Long is how them nights get
On her is how I wanna stay drunk
Is how I wanna stay drunk
