

Old Man River, Time

Time can reach out through my soul
Time can reach out through my soul

Time can reach out through my soul
Time can reach out through my soul

Down by the river
Down by its shore
The water makes me happy
Say won't you take me there
Say won't you take me there
Say won't you take me there
Say won't you take me there

Time can reach out through my soul
Time can reach out through my soul
