

Oleander, Half And Ass

You're like an earthquake
you're separated
you're like a whirlwind
you never say hello
but I like it when you're separated

keep it clean
change the scene
bad dream and you know where you are
it's only you and I

you look nervous
well you should be
you're educated
you're always learning
but I like it
when you're educated

keep it clean
change the scene
bad dream and you know where you are
take a trip
candy flip
bad trip and you're sailing away
hold my hand
down the way cause I've been so (high?)
cause it's you and I
