

# Olive, Safer Hands

## Verse 1

Little hand held high, I reached for you, Innocent and small  
Never felt so safe, No wider smile, I had it all  
No worries at all, Little girl just three, She couldn't see  
What there would be, Clearer than you think, My memory  
He treasured me, Protected me

## Chorus

Wherever you have gone to, My mind is settled, You're in safer hands  
Although you've gone for good now, My mind is settled, You're in safer hands

## Verse 2

The day you left, No warning came, I was sleeping  
Maybe it was your undying love, You didn't wake me, didn't take me  
Now the years have flown and I have grown, There is a yearning  
Give me just one day, to while away, To that I'm drinking: Wishful thinking

## Repeat Chorus

## Verse 3

Even though it's years, So long ago, There is a presence here  
If there was some doubt, it's all over now  
Of that I'm certain, there's no question

## Repeat Chorus
