Olive, Speak To Me

I've seen something new Seems that it's in you

Now there's something I must do

There's so much more

To forgive you for

My lips unread

I'll try something new

Open up to you

What more can my conscious do

There's so much more

To forgive you for

Speak to me

Nothing will help more than your honesty

Give to me

Knowledge that I can show so sympathy

Speak to me

Speak to me

Broken into two

Once torn now made new

The first time

I'm embracing you

So much more to forgive you for

There's so much more

To forgive you for

But nothing said

My lips are read

Speak to me

Nothing will help more than your honesty

Give to me

Knowledge that I can show so sympathy

Speak to me

Speak to me

There's so much more

To forgive you for

But nothing said

My lips are read

Speak to me

Nothing will help more than your honesty

Give to me

Knowledge that I can show so sympathy

Speak to me

Speak to me
