

Olive, This Time

Verse 1

This time, make no mistake
Resolute and crystal clear
This time I'm ready for you
Complete and without fear
Sweet believer
You must be found
A soul survivor
Who'll stick around
Never let me down

Chorus

Trouble in mind, It's a question of pride
The standard is high, I couldn't live another lie
I could walk miles if the feeling was right
I'm taking my time, I couldn't live another lie

Verse 2

This time
My eyes will look at you
Searching for better ground
This time
The rules we make will be mine
Stronger than you have found
Clearer than clarity itself
I am no visionary
Why do I enquire of myself
Questioning my inner strength
Too heavy to carry
Repeat Chorus
