

# Oliver Tree, Bounce

I'ma bounce you up and down  
You'll be coming back no doubt  
Baby please don't make a sound  
You're waking up my neighbors now

Keep quiet, can you shut your mouth?  
It's our secret till the truth comes out  
I'ma bounce you up and down  
You'll be coming back no doubt

[VERSE]  
Who you gonna call  
If things go wrong  
When things get bad  
It's always my fault

But when you need a friend  
Who you gonna call?  
Leave if you need but I really wanna see ya

I'll give you what you want  
When you feel lost  
Baby girl just give me a call

I really wanna taste, so tell me if it's on  
Come over to my place and stay up all night long

I'ma bounce you up and down  
You'll be coming back no doubt  
Baby please don't make a sound  
You're waking up my neighbors now

Keep quiet, can you shut your mouth?  
It's our secret till the truth comes out  
I'ma bounce you up and down  
You'll be coming back no doubt

I think about you all day lowkey  
Meaning I don't want you to leave  
You live in my head rent free  
So come and stay the night with me

I give it to you good  
I love the way you crave me  
Lately I been hooked, you been driving me crazy

I really wanna taste, so tell me if it's on  
Come over to my place and stay up all night long

I'ma bounce you up and down  
You'll be coming back no doubt  
Baby please don't make a sound  
You're waking up my neighbors now

Keep quiet, can you shut your mouth?  
It's our secret till the truth comes out  
I'ma bounce you up and down  
You'll be coming back no doubt
