You don't fall on your face now
I'm going to get out of routine
Say, I am not going to be on a leash
Everybody say, say
I want to be
Spend our days in a dream
Getting along together
We won't need rules
Our minds will take us
Where we want to go
Find a new way to survive
Create a passage
For a world illuminant,
Transforming our history
Find a new way to survive
Create a passage
For a world illuminant,
Transforming our history
You, don't fall on your face
I'm going to get out of routine
Say, i am not going to be on a leash,
Not going to be on a leash
Spend our days in a dream
Getting along together
We won't need rules
Our minds will take us
Where we want to go
Find a new way to survive
Create a passage
For a world illuminant,
Transforming our history
Find a new way to survive
Create a passage
For a world illuminant,
Transforming our history
You, don't fall on your face now

Say, I am not going to be on a leash
Everybody say, say
I want to be
You, don't fall on your face

Not going to be on a leash
