

Olivia Lufkin, Devil's In Me

Oh, the devil is in me
Oh, the devil is in me
Oh, the devil is in me
Oh, oh no
I must hunt you down
Locate your breeding ground
Inject it with applesauce
Dislocate its shoulder bone
The rupture twisted my spectrum
Masked my reason
Reversed my revelation
The rupture twisted my spectrum
Masked my reason
Reversed my revelation
I have to fish it out
I have to mend it up
And i got to throw it back
I have to be on my way
I have to be on my way
Oh, the devil is in me
Oh, the devil is in me
Oh, the devil is in me
Oh, oh no
Shadow your travels
To the way that you preach
Penetrate the vessels
Then detach the saddle
The rupture twisted my spectrum
Masked my reason
Reversed my revelation
The rupture twisted my spectrum
Masked my reason
Reversed my revelation
I have to fight you off
I have to win in out
Can't be lackadaisical
I have to be on my way
I have to be on my way
The rupture twisted my spectrum
Masked my reason
Reversed my revelation
The rupture twisted my spectrum
Masked my reason
Reversed my revelation
I have to fish it out
I have to mend it up
And i got to throw it back
I have to be on my way
I have to be on my way
