

Olivia Lufkin, Tell me

Keep me happy, out of line
Keep me sweet and satisfied
Come with me darling
Don't say no
How bout we just take it slow
Sexy baby you sure know
How to make my eyes glow
Come with me sugar
Do not fret
I have to tell you a secret
Staring into the sky
The nature hums music of you
Tell me, what do you feel?
Cause I know I'm feeling something
Emerging magical sores in me
Tell me, what do you feel?
Maybe this is just a moment
But we're penetrating time
Yeah
Your waves are crashing into me
Exciting me and hurting me
I'm feeling sick
Oh what am I to do?
I think your sweet kiss will do
Take me over completely
I'll give you whatever you need
Tell me, what do you feel?
Cause I know I'm feeling something
My senses are super sensitive
Tell me, what do you feel?
What I would do to be your girl
I'm aching without you
What do you feel?
What do you feel?
Tell me, What do you feel?
What do you feel?
