

Olivia Lufkin, Wish (english version)

vibrations you present
startles my understanding
a challenge to my ordinary
unusual to find such a special curiosity
i hold my breath to still the air excitement
Can you feel it now
Can you feel it now
parallel connection hiding out
Pulling on my heart
Pulling on my heart
undisciplined eruption
Baby, I know it's coming around
I'm totally upside down
I can't get it together to tell you what i feel
Baby my wish on a wing
and i'll send it off to you
search with sensitivity follow the traces
i can't pull away from you you steal all my attention
sometimes so much that i feel empty
I have to fill it back up so i can shine my brightest
it'll leak out further, further into your heart
Can you feel it now
Can you feel it now
my eyes link to your blink
Pulling on my heart
Pulling on my heart
feeling me natural extreme
Baby, My world is crumbling down
Im totally upside down
my words are stuck inside this stubborn heart
Baby my wish on a wing
and i'll send it off to you
it floats in the air sorrowful without you
Do you feel me?
Do you feel me now?
do you feel me?
Do you feel me now?
Do you feel me? [3x]
Baby, I know it's coming around
I'm totally upside down
I can't get it together to tell you what i feel
Baby my wish on a wing
and i'll send it off to you
search with sensitivity follow the traces
Baby, My world is crumbling down
Im totally upside down
my words are stuck inside this stubborn heart
Baby my wish on a wing
and i'll send it off to you
it floats in the air sorrowful without you
