

# Olivia Newton-John, Attention

(Olivia Newton-John /Annie Roboff /Steve Seskin)

Here in my heart, there's the truth  
But no one could love me like you  
But lately you seem so far away  
Pretending that you hear what I say  
It's all I can do to get some attention from you

Sometimes you look so unsure  
Has time left you longing for more?  
Wishing you would let me back in  
I just wanna be home again  
It's all I can do to get some attention from you

You mean too much to me to give up without a fight  
Lord knows we can't survive one more silent night

I'd like to think there's a chance  
Some way to save our romance  
But if I have to do it alone  
I'd be better off on my own  
It's all I can do to get some attention from you  
oh, What can I do to get some attention from you
