

# Olivia Newton-John, Brotherly Love

(John Farrar)

Trying to win your confidence just wears me down  
Trying to win your love will wear me out  
You've been loved by many girls but left by only one  
It made you doubt; it made you doubt  
There are those of us who try to use a boy  
There is nothing further from my mind  
As you will find

Brotherly love won't do no harm  
A brotherly kiss on the cheek will only bring me comfort  
Brotherly love ain't all I need  
So if you love me in awhile  
Put away your brotherly smile

Put a little trust in me and give again  
You can let your reservations go  
Put a little fire in the way you say hello  
And I will know; yes I will know  
Have a drink and make a resolution  
Resolve to put yourself into my hands  
Into my hands

Brotherly love won't do no harm  
A brotherly kiss on the cheek will only bring me comfort  
Brotherly love ain't all I need  
So if you love me in awhile  
Put away your brotherly smile

Brotherly love won't do no harm  
A brotherly kiss on the cheek will only bring me comfort  
Brotherly love ain't all I need  
So if you love me in awhile  
Put away your brotherly smile
