

# Olivia Newton-John, Car Games

(Olivia Newton-John/Randy Goodrum)

Have you seen them  
Playing car games  
Revvng up your heart  
Before the lights change  
Have you been there  
And not been aware  
That you are the victim  
Of a highway love affair

Thru your window  
There's a stranger  
Cruising right beside you  
Courting danger  
When your eyes meet  
For one second you believe  
You're another victim  
Of a highway love affair

Car games--faces with no names  
Freeway lovers lanes  
Car games--silent rendezvous  
For a mile or two  
Playing car games

Every morning there's another  
Chance to fuel the fantasy all over  
Are we cheating  
If it's only in our minds  
Have you been a victim  
Of a highway love affair

Car games--faces with no names  
Freeway lovers lanes  
Car games--silent rendezvous  
For a mile or two  
Playing car games  
Silent rendezvous, for a mile or two  
Playing car games, car games
