

# Olivia Newton-John, New Home Town

(Randy Goodrum)

There'll be friendly faces everywhere you look  
Like that magic page inside your coloring book  
And we'll begin again  
And find our strength again in our new hometown  
And there's a house beside a pond inside our woods  
And every winter it becomes the neighborhood  
There'll be a snowman then  
And skaters everywhere in our new hometown

(Chorus)

So don't be afraid, little princess  
When the train finally reaches tracks end  
Every step of the way, I'll be one heart beat away  
Little princess, tomorrow starts right now  
In our new home town

There's a room inside our house that's mine and yours  
And I promised you feel safe and so secure  
We'll have a better life, a little paradise  
In our new hometown

(Chorus)

So don't be afraid, little princess  
Cause our journey has come to an end  
Every night every day I'll be one heart beat away  
Little princess, tomorrow starts right now  
In our new hometown
