

Olivia Newton-John, Precious Love

(Olivia Newton-John /Annie Roboff)

In this world where life keeps changin'
Nothin' ever seems to be enough
I kept on, my soul was searchin'
Lookin' for something that would fill me up
I have always felt a yearnin'
Somethin' inside me was unsatisfied

Precious love you woke my heart up
It's been sleepin' for such a long time
This crazy feelin' I can believe in
Your love has found it's way into my life

Take our time, slow and easy
I'm so comfortable when I'm with you
Catch my breath when you come near me
Can't control this if I wanted to
Thought I'd never trust another
But here, in your arms, I feel safe again

Precious love you woke my heart up
It's been sleepin' for such a long time
This crazy feelin' I must be dreamin'
Your love has found it's way into my life

You touched a part of me
And set my spirit free
Precious love

This crazy feelin' I must be dreamin'
Your love has found it's way into my life
You know your precious love has changed my life
