

# Olivia Newton-John, You Were Great, How Was I

(J. Farrar/T. Snow)

I'll never learn  
I cling to the past  
I find so much there to lean on  
But when I get lucky  
I can even forget  
Our now and forever are gone

I know what you mean  
I go there myself  
When I feel the mood coming on  
It comes on so easy  
It's hard to believe  
Our now and forever are gone

When did we lose our starry eyes  
The feeling's too strong to compromise  
Something went wrong between hello and goodbye  
Now it's too late  
Love you were great, how was I?

I'm doing my best with somebody else  
It's good to feel counted upon  
It keeps me from sliding to where I forget  
Our now and forever are gone

When did we lose our starry eyes  
The feeling's too strong to compromise  
Something went wrong between hello and goodbye  
Now it's too late  
Love you were great, how was I?

Tell me now, Tell me now, Tell me now  
Oh now it's too late  
Love you were great, how was I?

Love you were great, great, how was I?
