

# Olivia (US), It's On Again

[Verse 1:]

The places brings back memories  
as I walk by quiet streams  
The caress of a wind blowing over me  
brings a chill to my skin  
Whispers that go through the trees  
And a hush comes over me  
No way to fight the rush  
Can't escape how we touch

[Bridge:]

As the cherry blossoms slowly start  
to reminisce the love we made  
I can feel you in my arms  
Gotta run to you

[Hook:]

I keep having these visions of you  
Breaking me off like a lover should do  
Remember the love in the pouring rain  
Then it's on again  
Video plays all over my body  
I hope sex is all over your mind  
The catches may change but the secret's the same and it's on again

[Verse 2:]

The secret place you touched me there  
are so unforgettable  
ain't no way I can ease all the visions of you  
Our love's so unbelievable  
You touched me softly, deeply like a woman needs  
All I want, all I breathe even though I am...

[bridge]

[hook]

[Verse 3:]

Walking through quiet places  
brings back memories of the love we shared  
(remember that time by the waterfall)  
Lost in those faded pictures (faded pictures)  
Sexy whispers, and then I know it's on again.  
I know it's on again...
