

Ollie, My Friend

There is nothing in this world I wouldn't do
To find a way to ease my mind, ease my mind
And I'm a shadow of a man
Who once loved anew
I'm crying out whats left inside, left inside

I wanna scream your name
But you ain't gonna hear a thing
As the wind catches all
My words get blown away
I feel the air getting cold
Ever since the day that you've been gone

Where do I go from here?
Things aren't the same when I don't have you near
Will you be there when I stop breathing?
Will I see you again? Will I see you again?

So many things I didn't say
I should've told you every day
And now they're stabbing like a thousand knives
I fell into my addiction
Bruises in my reflection
Help me realise that I'm still alive

Where do I go from here?
Things aren't the same when I don't have you near
Will you be there when I stop breathing?
Will I see you again? Will I see you again?

I'm calling out your name
But you ain't gonna hear a thing
I'm calling out your name
I'm calling out your name

Where do I go from here?
Things aren't the same when I don't have you near
Will you be there when I stop breathing?
Will I see you again? Will I see you again?

My friend
