

# Olly Murs, Louisa Johnson, Unpredictable

I'm sick  
I like it  
There's a moment when we fight  
I get so excited

The next move is someone's  
Maybe that's what makes it fun  
We don't; know what's coming

But you got me  
And I got you  
Couldn't stop this  
If we wanted to  
You got me and I got you

It's better when there's no one in control  
We don't know which way it's gonna go  
It drives me crazy  
We go to bed at night in love  
You make up and hate me  
But I just can't fight it  
Other people might break up  
But that's how I like it

Cuz you got me  
And I got you  
Couldn't stop this  
If we wanted to  
You got me and I got you

I like us when we're unpredictable  
Cause that's when love is so phenomenal

It's better when there's no one in control  
We don't know which way it's gonna go  
I like us when we're unpredictable  
Cause that's when love is so phenomenal

It's harder when there's no one in control  
We don't know which way it's gonna go
