

# Oman Freestyle, It's Just Me

I came to this world not knowin' nothin  
Mom said my dad is dead, I know she's bluffin

You don't know my pain  
My lyrics hit your heart, and spin your brain

When I hit tha scene I'm hard to handle  
My ice so bright like a thousand candles

You won't see a flow like this ever in yo life  
I spit it hard while I'm F\*ckin your wife

I came down with my yellow bone  
Sprees on my motorhome  
Wood grain on my phone

Our CD will be out soon! W.B.F.
