

Omd, Then You Turn Away

I didn't want to see you
Not when you're at your best
And talk about the weather
I couldn't pass the test
So many things I do
So many things I say
Give you the wrong idea
So many things I do
So many things I say
just make a fool of me
Then you turn away
Then you turn away
I couldn't help but call you
I waited almost all the week
I didn't want to hear you
Laughing aloud at me
So many things I do
So many things I say
Give you the wrong idea
So many things I do
So many things I say
just make a fool of me
Then you turn away
Then you turn away
There's people saying that it's obvious
That I'm wasting my time on you
And people saying that it's obvious
That I've fallen in love, it's not true
So many things I do
So many things I say
Give you the wrong idea
So many things I do
So many things I say
just make a fool of me
Then you turn away
Then you turn away
