

# Omen, Eye Of The Storm

Where is the light that guides me  
Like the dawn it warms my soul  
I wait alone in the darkness  
Till I can play the songs  
That make me whole

I'm lost in the eye of the storm  
There's no way out for me  
I'm alive in the eye of the storm

I don't need you to set me free..

Once the stage was but a dream  
Now I live for the Roar of the Crowd  
Sometimes it's all too good it seems  
But when the music starts I stand proud

All at once the truth comes reaching  
To touch your heart and let you know  
There's a message that you are teaching  
Power comes from within your soul

Look into the light and begin  
To learn to ride the wind

There's no place on Earth I'd rather be  
I'm alive, in the eye. of, the, storm
