

Omen, March On

It's love....

Do you really know the truth
We hear it from the mouths of youth
You must aim above the stars
To make it further than you are

(Chorus)

March on metal warrior
March to battle
To battle with all your might
March on metal warrior
You can't lose
You can't win without a fight

Prophets tell us of some fear
For the end is drawing near
We must learn to stand up tall
Or there's nothing left at all

(Chorus)

A fight of ??
You cant' lose
Cant' win without a fight
A fight
A fight of ??
You cant' lose
Cant' win without a fight

We're moving closer to our grave
We tried our bast at being brave
Why not clear what's in your mind
And leave this broken world behind

(Chorus)
