

# Omen, Termination

Through the mist of not so distant future years  
Comes a killer with a frame of steel  
Though he may look like any other man  
Something about him just isn't real

With the strength of one hundred mortal men  
He stalks the city streets for you  
With eyes that focus like a zoom in camera lens  
There's nothing you can do

(Chorus)  
Cyborg lust  
Program - to terminate  
Cyborg lust  
Come to seal your fate

Man's technology caused this bloody war to wage  
Computers try to take control  
Laser blasts fill the smoky skies with rage  
Mechanical beings fight with soul

The death machine is sent back in time to kill  
The one who will teach us all to fight  
Onto this Earth a young woman's blood must spill  
To complete the program he will kill on sight

(Chorus)

Cyborg lust  
Cyborg lust

Refrain 1st verse & Chorus  
Terminate, Terminate, Terminate...
