

# Omnimar, You & I

I love you I love you  
More than words can say  
Can you feel it our deepest secret  
We keep it in each other's eyes  
So wildly , insanely I love you  
I would die for you one day  
Nothing as usual nothing as simple  
Makes me feel so complete

Feeling you are blooming  
Watching your lips moving  
Hear me  
I can't get enough of you

Im waiting here let me in  
Inside your rebel heart  
You and I You and I You and I  
Heroes of one fight  
Born in flame made of ice  
Good and evil crystallized in you  
But I know You and I You and I  
Shall never be apart

I love you remember what we are  
Is only a risk not a mistake  
Through thorns and days, no sleep no rest  
(I get) one world closer to your embrace  
So endless in my arms you're glowing  
Im not lost anymore  
Among countless ways around us  
You're the shining light guiding me home

Feeling you are blooming  
Watching your lips moving  
Hear me baby  
I can't get enough of you

Im waiting here let me in  
Inside your rebel heart  
You and I You and I You and I  
Heroes of one fight  
Born in flame made of ice  
Good and evil crystallized in you  
But I know You and I You and I  
Shall never be apart
