

Omnisoul, Another Day Gone

Pick me up.
Say the things you mean.
Make it up to me.
Pretend youre here to please.
Another day is gone and now Im all alone.
Does it hurt to stand up with a heart made of stone?

I sing to the world of loss and pain.
Ive been burned too many times to say.
But Ive learned lots about myself today,
And I dont feel so bad.

Ive grown up.
Now, I can take a punch.
You were so high,
And things didnt mean half as much.
Another day is gone, and now Im not alone.
Does it hurt to stand up when youre out on your own?

I sing to the world of loss and pain.
Ive been burned too many times to say.
But Ive learned lots about myself today,
And I dont feel so bad.

I changed my mind today.
Im sick of what you say.
I decided Ive been blinded.
Cause my life isnt sad,
But its this world thats gone mad.
I can ride it,
But I wont hide it.

I sing to the world of loss and pain.
Ive been burned too many times to say.
But Ive learned lots about myself today,
And I dont feel so bad
